The Power of Parent Partnership at Fravashi International Academy -

At Fravashi International Academy, we believe that education is a collaborative journey between the school and families. While students spend a significant portion of their day within the structured environment of the school, a large part of their formative years is shaped by experiences outside the school. On an average, from Early Years to Grade 12, a student spends approximately 33% of their time at school (under strict monitoring), leaving 67% of their time outside the school environment—a space heavily influenced by family, peers, and digital exposure— which needs a detailed monitoring by parents. To state the basics, a parent must at all times know the whereabouts (exact location, activities he/she indulges in) of his own child much before they get to know about it from anybody else.

As parents, it is natural to assume that we understand our children well. However, in today's fast-paced, digitally-driven world, where external influences shape a child's personality as much as internal values do, it is essential to pause and reflect. Do we truly know our children beyond their academic achievements? If we don't, then there is a need to spend quality time with children every single day. Strong communication is the key that would make children comfortably share their joys, concerns, aspirations, strengths, weaknesses, likes, dislikes, anger, threats, and so much more with parents. Accordingly, parents can make the most of this 'quality time' to work towards raising well-rounded individuals who are equipped to navigate an increasingly dynamic world.

As rightly said, parenting does not come with a manual. But, with some tips, tricks and shared experiences parenting can be smoother. Being an educator, and a guardian to all my children studying at Fravashi Schools, I want to make an earnest request to my Parent Partners to follow 3 simple guidelines curated in the best interest of our children so that we focus on making them ready for Life instead of making them ready for a day -

1. Stop Protecting Children From Problems

As Parents, it is but natural to extend all support and help to your child in finding solutions to their problems. Ever imagined a day where you would not be there to guide them? What will your child do at that time? Please understand that it is important for children to be independent right from the Pre-primary age. Having said that, we will always be there in case something does not work in their favour, but let them analyse their problems, think of a solution, and give them time to implement their solution till it provides some result whether good or bad. At school level, for minuscule problems of the children, parents have a tendency of providing a readymade solution, without even letting the child think of one and which further makes them totally dependent on somebody for solutions. Please let children fight their own battles, and let them get the joy of overcoming their little hurdles. But remember, always stand by them.

2. Allow Children To Go Through Failures -

Let children feel their own struggles and problems, these things will make our children stronger. As parents, be there with them during these times, guide them, encourage them, pray for them, and express your love and affection to them. A fast-changing world can be easily adapted to by stronger individuals. Children who face failures on their own, learn to come out of them stronger, braver and more confident. Again, there is no right age for this, the sooner you start, the stronger your children will be at a young age. In order to imbibe the 'never give up attitude' in our children, it is a must for them to face hardships, failures, struggles thereby overcoming them, on their own!

3. Praise Their Effort, Not Their Talent -

No matter what grades/marks/children score, their effort must always be appreciated. As parents, speak to them about the hard work that you saw them doing, guide them with what can be done for a better performance in the future, and encourage them to put in their best for the next time. Children will be very happy if their effort is recognised by the parents without bothering about their results. I am sure with this kind of a motivation from parents, all our children will definitely reach greater heights.

With the above guidelines followed, I am sure every parent would be happy to see their children becoming independent, and becoming more-and-more ready to conquer the world full of challenges.

I am sure, as responsible parents, a strict monitoring of the children's screen-time is being followed so that the 67% of the time that they are away from school is used productively. In today's world where technology is replacing multiple traditional tools, and the fact that even toddlers are able to operate screen on their own, it is crucial for parents to be a step ahead. With technology coming with its own pros and cons, there are multiple applications that are extremely parent-friendly, helping parents minimise the children's screen time using an in-built timer, as well as gaining control of every little thing that children would do using the screen. Please feel free to connect with us for any help in this regard.

Fravashi International Academy being one of the most successful institutions following the Cambridge Curriculum is blessed to educate its students with skill-based focus.

A skill-based education is what new-age parents look forward to, and what better than it being taken complete care of at the school?

Over the years of experience as an Educator, I personally feel that apart from imparting skills, it is necessary to teach children creativity, judgement, human emotion, psychology, kindness and empathy. These are the fundamentally important things that one must know irrespective of the career path ones chooses, and irrespective of the technology that one may use in the future.

Together we are partners in shaping the next generation of leaders, thinkers, and change-makers.

As our Chairman Mr. Ratan Luth rightly guides, mindful parenting is not about perfection; it is about commitment—to be present, to guide, and to nurture children in ways that prepare them for the challenges and opportunities ahead. As educators and parents, let's make a deliberate effort to raise individuals who are not just academically competent but self-sufficient, emotionally strong, capable, socially responsible, and future-ready.

Together, we can create a world where our children thrive—not just survive.

From the Director's Desk

Teaching children the Importance of Privacy in the Social Media Age

In today's hyper-connected world, children are growing up in an era where personal data is constantly shared, stored, and analysed. Social media platforms like Instagram, Facebook, Snapchat, and the latest sensation, BeReal, have redefined the way young individuals interact with the world. While these platforms offer avenues for self-expression and connectivity, they also pose significant risks when it comes to privacy and data security. It is, therefore, imperative that we, as educators and families, instill a strong sense of digital responsibility in our children. Families play a crucial role in shaping children's understanding of privacy. While openness within a close-knit family is encouraged, children must be taught that personal images, future plans, and sensitive details should only be shared with trusted individuals. Creating a culture where children feel comfortable discussing online interactions with parents and guardians can act as a protective barrier against potential threats.

Practical ways to instil these values include:

- Encouraging private, direct conversations rather than public posts.
- Setting clear boundaries on what should and should not be shared online.
- Discussing real-life cases of identity theft and cyberbullying to illustrate potential dangers.
- Creating an open environment where children feel safe discussing online interactions without fear of reprimand.

Privacy is not just a matter of protecting data; it is about preserving personal security, mental well-being, and the ability to engage meaningfully with the world. By fostering awareness, setting boundaries, and encouraging mindful digital habits, we can ensure that our children's online experiences remain enriching rather than exploitative. It is time we redefine what it means to be 'connected'—not through the number of likes, shares, or followers, but through real, meaningful relationships and responsible digital engagement.

Ms. Tanishka Nale, Grade 12(A Level 2026) from Fravashi International Academy, Nashik, India has been recognised with the highest accolade a young person can achieve for social action or humanitarian efforts – The Diana Award.

Established in memory of Diana, Princess of Wales, the Award is given out by the charity of the same name and has the support of both her sons, HRH The Prince of Wales and Prince Harry, The Duke of Sussex.

Tanishka, following the loss of a family member due to delayed medical help, launched ‘Life Saver’ -an initiative to bring emergency preparedness to rural areas. She collaborated with local hospitals to organise CPR workshops, first aid training and roadside trauma assistance, reaching over 5,000 people in 15 months – from school children to factory workers. Introducing the concept of ‘health messengers’, Tanishka trained two representatives in each village to address emergencies like cardiac arrests and natural disasters. Her efforts also include annual blood donation camps and fundraising to install defibrillators in village panchayats, ensuring swift medical assistance in remote areas

PRIDE OF FIA

Mr. Ratan Luth, Chairman of Fravashi Group of Schools has been honoured yet again with the Navabharat CSR Award at the Maharashtra CSR Summit 2025, Honouring CSR Heroes - Inspiring New India. This award was presented to our Ratan Sir by the Hon'ble Governor of Maharashtra, Mr. C. P. Radhakrishnan, in the presence of Mr. Shishir Bajaj - Chairman of Bajaj Foundation, Mrs. Seema Singh - Founder of Meghashrey Foundation & Mr Nimish Maheshwari, Chief Editor Navabharat.

Vice Chairperson of Fravashi group of schools Mrs. Sharvari Luth has been conferred with the 'Most Inspirational Woman Award' at the Navabharat Inspirational Women Summit 2025. This prestigious award was presented by the Chief Guest - Mrs. Amruta Fadnavis - First Lady of Maharashtra, Banker, Actress, Singer, Social Activist, & Founder of Divyaj Foundation in recognition of her remarkable contributions to art, education, and philanthropy.

Fravashi International Academy ranks #1 in Nashik, no.4 in Maharashtra and no.6 in India in the Top 20 International Schools Category with IGCSE/ A levels CIE curriculum. Fravashi International Academy ranks #1 in Nashik and Maharashtra and no.9 in India in the Top 20 Preschools Category, at the Education Today - Merit awards.

It is a moment of immense pride to celebrate the achievement of Dr. Manju Surendran, our visionary Director of Academics. She has been nominated for a prestigious thought leadership project on Future-Ready Learners by Cambridge University Press—an honor that reflects her expertise and commitment to innovation in education.

What makes this even more extraordinary is that Manju Ma'am is the only school leader from the entire India region selected for this groundbreaking research. As part of this project, she will share her insights on shaping education to prepare learners for an unpredictable future, representing not just our school but educators across the country.

A Legacy of Philanthropy Continues..

Through the Fravashi International Academy's Interact Club, our young changemakers have once again successfully executed a CSR project that has transformed the lives of the hostel students of Janta Vidyalaya boarding school at Girnare, Nashik.

The project comprised of Bunk bed mattresses and bed sheets for restful sleep. Individual MS storage cabinets for each child. A fabricated shade over the play area for protection. Covering the open washroom with a fabricated shade for privacy. Paver blocks installed around the hostel for safety and accessibility. And essential needs like clothes, shoes, socks, towels, etc. These were handed over in the presence of Chairman of Fravashi Group of Schools- Mr. Ratan Luth, District Governor- Mr. Rajinder Singh Khurana, Rotary Club of Nashik's Members and Fravashi International Academy's Management, students and team members. This initiative is one of the many service-driven projects undertaken by the students of Fravashi. Their actions reflect the values of empathy, responsibility, and leadership that are nurtured within the institution through its Managing Trustee- Ms. Meghna Bakshi, Director Academics- Dr. Manju Surendran , Co-ordinator- Ms. Reena Malhotra and under the able guidance and support of Ratan Sir who himself is a huge advocate of philanthropy. It is a humbling feeling to highlight that Fravashi's Interact Club is the only Club in the country to have raised maximum funds in three consecutive years.

RYLA - Dreams come true..

On November 23, 2024, Fravashi International Academy (FIA) hosted the Rotary Youth Leadership Awards (RYLA) program, "Dreams Come True," organized by its Interact Club. The event welcomed 160 underprivileged students from rural schools, offering them a transformative day of learning and inspiration.

Chairman of Fravashi Group of Schools Mr. Ratan Luth, Managing Trustee of Fravashi Group of Schools Ms. Meghna Bakshi, Dr. Manju Surendran Director Academics of Fravashi International Academy and esteemed Rotarians inaugurated the event, emphasizing self-belief and dreaming big.

The program featured sessions on career development, financial literacy, and awareness of abuse, cyber security, and health, including guidance on the HPV vaccine for girls.

A Mini Sports Day added fun and built teamwork, with prizes for winners and gifts for all participants. The above initiative empowered students with essential knowledge and skills for a brighter future, embodying FIA's dedication to social upliftment.

Title of Distinguished Reader on the LightSail Platform for November 2024.

The following students have been awarded Certificates of Recognition for their recognition celebrates their outstanding dedication to daily reading and their unwavering passion for knowledge.

Ms. Mishka Thakare (VI), Ms. Dia Tandon (VII), Ms. Deven Vora (VII), Ms. Arya Tomar (VII), Ms. Deyaan Goasavi (V).

Congratulations to the FIA champions for their outstanding performance at the 6th Azaad Cup Karate Championship on January 12, 2025.

These exceptional students showcased remarkable skill, focus, and passion, proudly representing the World Traditional Shotokan Karate Federation, Maharashtra.

Ms. Samaira Das from Grade V won two gold medals in Kata & Kumite at the 6th Azaad Cup & was honoured with a cycle for being the Best Karateka. She also earned her Black belt (1st Dan) and made a significant accomplishment in her Martial Art journey!

Ms. Aarohi Javia [Grade V] appeared for the Singapore Math Challenge - 2024 and received a certificate of outstanding achievement in Grade V.

Mst. Sarthak Pillai from Grade V won Best player trophy and team winner medal in NIWEC Football league 2024

Mst. Anurag Ahire from Grade V won Best goalkeeper trophy and runner up medal in NIWEC Football league 2024

JUNIORS' JAM

Elementary Exam

Creativity meets dedication! 
 More than 34 talented students appeared for the Elementary Drawing Exam, while 5 budding artists took on the challenge of the Intermediate Exam.
 Showcasing their passion and skills!
 Their hard work was recognized with appreciation certificates, celebrating their artistic journey.
 Keep shining and keep creating!

Students of Grade V Ms. Aarvi Somani & Mst. Ishaan Somani showcased their incredible talent at Nashik Little Champs 2025 Season 10, making it to the finals in the instrumental category! Both received Gold Medals along with Participation Certificates, and a special shoutout to Ishaan for securing the 2nd Runner-Up Trophy!
 They also participated in Kensington Idol Juniors – The Talent Show and received participation certificates!

Mst. Rivansh Thakker Grade VI showcased his mathematical brilliance at the Singapore Math Olympiad and American Mathematics Olympiad in November 2024. His hard work and dedication earned him a Certificate of Participation and an impressive 1st Rank in both competitions!

Ms. Shanaya Sethi from Grade VI won Level 1 award with distinction in Examination in Communication skills from Trinity College London

Ms. Amayra Khandelwal [Grade VI] attended Spell bee International's Strategic Language enhancement program and received a Certificate Of Merit Plus in Interschool level

Mst. Nayanesh Birla Grade VI secured 3rd place in the Rudra School STEM Fest. Competing in the Electric Vehicle category, Nayanesh built an electric go-kart capable of reaching a speed of 40 km/h and supporting a weight of up to 100 kg.

Oceans Foundation, USA. the 34 finalists

2,555 days—

that's all we have
to live our teenage dream.
7 years—gone in a blink.
To everyone reading this—
We spend so much time waiting.
Waiting for the next summer,
the next weekend,
the next big moment
that will finally make us feel alive.
But what if we're already in it?
What if these are the days
we'll spend forever missing?
So promise this—
take chances,
have a lot of dances,
laugh until your ribs ache.
Because one day, this goes.
One day, you'll take your last test,
have your last careless lunch break,
your last walk through these hallways—
the ones you swore you'd never miss.
And then it's over.
You'll be packing your bags,
off to some new place,
where no one knows who you used to be.
It will all go by so fast.
So don't live for someday.
Live for the chaos, the friendships,
the dumb decisions that make the best stories.
Make your life a song—
one with late nights and early sunrises,
with memories that taste like freedom, with mistakes,
with moments too big to name.
Because when the music fades,
you won't get a replay.
All you'll have left is the melody—
so make it one worth remembering.

SARDAR VALLABHAI PATEL FIA SPORTS LEAGUES

SARDAR VALLABHAI PATEL FIA SPORTS LEAGUES

"Sports do not build character. They reveal it" Keeping this popular quote in mind, every year FIA's team organises a fun-filled and thrilling event called as **Sardar Vallabhbhai Unity Sports League** for the students of grade 9th to 12th. This allows not only the students but also our beloved teachers to take a couple of days off from their regular academics and busy schedules and immerse themselves completely into exhilarating sports and games like cricket, swimming, tennis, football, basketball, chess and athletics. The participants are divided into six teams and all the sports enthusiasts in each team show off their sporty skills and work with full determination to make their own team win. That's what team work is, to help and support each other, working towards a common goal. Events such as Unity Sports Leagues is a great platform for students to showcase their talent and name a trophy to themselves. Heartiest congratulations to the champions of Red Devils who gave their heart and soul to be declared as the winners for the year 2024!

INTERVIEW WITH OUR SUPPORT STAR

Q Hello maushi, could you tell us a little about yourself?

I am Aasha Munajwisi, and I work at Fravashi International Academy since 18 years

Q Do you like your school?

I am very proud of my school. All the teachers are very kind and dedicated.

Q What changes would you like to see?

Earlier, the school was big. Now, it has grown bigger and has also become more beautiful.

Q Do you have any good memories of FIA to share?

3 years back, I lost my husband, At that time, the school helped a lot. The teachers supported us greatly. I have many memories of my time here.

The teachers are very good—Ratan Sir, Meghna Ma'am, Sharvari Ma'am—they are all excellent.

They have always supported us.

During the lockdown, they stood with us. Even when we were at home, they helped us by providing essentials and financial assistance.
